

SecuGen WBF Driver Installer for U20/UPx Series

This driver installer will install SecuGen WBF (Windows Biometric Framework) drivers onto a target Windows system. During installation, the device driver files are copied to the appropriate Windows directories for the devices listed below. This will make the appropriate driver available for your application.

Product Name	Model
Hamster Pro	HUPx
Hamster Pro V2	HUPx-AP
Hamster Pro 20	HU20, HU20-A, HU20-AL, HU20-AP
Hamster Pro Duo CL	XU20CL
Hamster Pro Duo SC/PIV	XU20ASCI, XU20SCA, XU20SCI, XU20SCP
Hamster Pro Trio	XU20ASCL
(OEM USB sensors)	U20, U20-A, U20-AL, U20-AP, UPx, UPx-AP

Both 32-bit and 64-bit drivers are provided in this installer, but only the platform-specific drivers will be installed on the target system.

When you launch the installer, you will see the following dialog windows during the installation process.
